

PUBLIC NOTICE - May 5, 2015

Re Water Bills

You will notice a change in your water bills starting this month. The actual consumption is now recorded on the bill. The number you see for this month (May 2015) is your consumption since the meter was activated at your place of residence or business BUT is not charged to you as yet. The bills this month are based on the old flat rate system.

Starting in June of 2015 you will receive a utilities bill at the END of each month and from the June 2015 bill forward you will be charged at the rate of \$3.25 per cubic meter of water used along with the \$25 basic water charge.

For your information a cubic meter of water contains approximately 220 imperial gallons.
